Dear Friend,

Thyroid cancer continues to increase in incidence, and your wonderful support has helped ThyCa serve record numbers of people. We're pleased to report that our web site receives more than 230,000 hits each month.

I'm writing you with three invitations—please help raise awareness about early detection, connect people with ThyCa's free education and support, and increase thyroid cancer research. Three ways you can help:

- **Share our free awareness materials** with your friends, relatives, and physicians. Download flyers from our web site, or use the form below for free materials.
- Tell everyone you know about the **10th International Thyroid Cancer Survivors' Conference** in San Francisco, California, on October 19-21, 2007, and about our **Research Fundraising Dinner/Auction** the evening of Saturday, October 20. Our web site has details. We hope you can attend these unique events.
- Donate to ThyCa for general support, the Thyroid Cancer Research Fund (papillary, follicular, anaplastic, variants), or the Medullary Thyroid Cancer Research Fund. Use our web site's secure online form or mail a donation.

With your help, together we can make a big difference in the lives of everyone with thyroid cancer. With all good wishes for your health.

Sincerely yours,

Gary Bloom
Executive Director

P.S. We greatly appreciate your support. We look forward to hearing from you.
