

After the Diagnosis: Medullary Thyroid Cancer Memoirs

If you've been touched by cancer...

You may find healing in a new book written by 66 thyroid cancer survivors and caregivers.

In 84 essays, the authors journey through life after their diagnosis, and the impact it creates for their families, spouses, caregivers, friends, their careers, and the emotional toll.

No two stories are alike.

Due to a generous donation, the paperback version is still available, with the entire \$20.00 going to ThyCa's Medullary Thyroid Cancer Research Fund.

After the Diagnosis is also available in Hardback (\$29.95), Paperback (\$19.95), and Kindle (\$9.95) versions on Amazon and Outskirts Press. A portion of the proceeds from each online sale goes to MTC Research.
