

If you have health insurance...

Do you have commercial health insurance?

This may be insurance you get through your employer or purchase for yourself.

The Co-Pay Assistance Program can help you with the cost of Thyrogen (thyrotropin alfa for injection).

If your out-of-pocket costs associated with Thyrogen are over \$100, you may be eligible for assistance for up to \$1,000 of your out-of-pocket expenses per calendar year.

If you have questions about eligibility, program benefits, or out-of-pocket costs exceeding the program limit, **please call your ThyrogenONE case manager at 1-88-THYROGEN (1-888-497-6436).**

How to access the Thyrogen Co-Pay Assistance Program:

Already have a bill?

Call your ThyrogenONE case manager to apply for co-pay assistance.

Haven't been treated yet?

If you'd like to be approved for co-pay assistance prior to treatment, your doctor can help you apply.

ThyrogenONE is also available to answer any questions you have and help facilitate financial assistance conversations with your doctor.

Note: No claim for reimbursement of any out-of-pocket expense amount covered by the Thyrogen Co-Pay Assistance Program may be submitted to any third-party payer, whether public or private. The Thyrogen Co-Pay Assistance Program is available only in the United States and cannot be combined with any other rebate/coupon, free trial, or similar offer. Genzyme reserves the right to rescind, revoke, or amend this Program without notice.

Do you have government health insurance?

The Thyrogen Co-Pay Assistance Program does not cover prescriptions eligible to be reimbursed, in whole or in part, by Medicaid, Medicare (including Medicare Part D), or other federal or state programs (including any state prescription drug assistance programs).

Call your ThyrogenONE case manager at 1-88-THYROGEN (1-888-497-6436) to get more information on independent co-pay assistance foundations that may be able to help.

If you are uninsured...

The Patient Assistance Program is committed to providing Thyrogen to patients in need.

If you medically need Thyrogen as recommended by your physician, and are uninsured or have a plan that does not cover Thyrogen, then we may be able to provide Thyrogen, free of charge, through our Patient Assistance Program.

To learn more, or determine if you might qualify for assistance, contact your doctor's office.

ThyrogenONE is also available to answer any questions you have and help facilitate financial assistance conversations with your doctor. **You can contact your ThyrogenONE case manager at 1.88.THYROGEN (1.888.497.6436).**

Note: Genzyme's Patient Assistance Program may be discontinued at any time at the discretion of the Patient Assistance Program Committee.
